

Northeast Iowa Community College

Dairy Science Student Profile

Name: Bridget Saxton
Hometown: Lake Mills, Iowa
High School: Lake Mills Community School
Class Size: 50
Farm Name: Larcrest Holsteins
Major: Dairy Science Technology
& Large Animal Vet Tech

Why did I decide to go to NICC? I chose to attend NICC because it is one of very few 2-year dairy science programs with more hands-on learning opportunities than other colleges.

What has been your most memorable college experience? My most memorable college experience so far has been attending state and national PAS. These competitions were so much fun and they taught me a lot. I can't wait to compete again this year!

What has been my favorite course? My favorite courses have been Animal Health and Animal Reproduction. I learned a crazy amount of useful knowledge in a very short amount of time, and I'd take them all over again in a heartbeat.

What are my future career goals? After graduating from college with degrees in dairy science technology and large animal vet tech, I hope to eventually own a custom heifer raising business. Caring for calves and heifers has always been my passion, and I can't think of anything better than being able to turn that passion into my career.
