

Northeast Iowa Community College

Dairy Science Student Profile

Name: Carley Vinkemeier
Hometown: Norwood Young America, MN
High School: Central High School
Class Size: 56
Farm Name: Seven C Dairy
Major: Dairy Science
& Agriculture Business

Why did you decide to attend NICC? I decided to attend NICC because of its advancement in technology compared to other colleges I visited. I admired the three different types of milking styles being used which are parallel, herringbone, and robotic. I also liked the small sized classes and the courses that were available.

What has been your most memorable college experience? My most memorable college experience was winning the World Dairy Expo Judging Contest and placing 3rd overall individual.

What has been your favorite course? I don't have a specific favorite course, but I did enjoy my animal health lab and animal reproduction lab. In these courses I got to work hands on with dairy animals at the Dairy Foundation.

What are your future career goals? My future career goals are to work for a company promoting agriculture, such as Midwest Dairy Association. I want to continue my passion with dairy in promotions and communications.
